1.0 COMPANY PROFILE

Our traditional business model is based on the accomplishment of earthwork, landfill remediation, infrastructure, transportation and supply of armor rock and boulder in Malaysia. Based on the decision of the company to diversify its business, Golden Prosperous Resources Sdn Bhd was established as a bauxite mining company based in Pahang, Malaysia on 13 June 2014. Golden Prosperous Resources Sdn Bhd is currently one of the major bauxite mining companies in Malaysia, dealing in bauxite mining, trade and logistics. The revenues of our company are 9 million USD per month depending on the variables that are factored in with the reserve and demand of the bauxite minerals. Since its establishment in 2014, it has exported 7.8 million metric tons to Main Land China up to January 2025.

Golden Prosperous Resources Sdn Bhd is one of the largest bauxite exporters in Malaysia. Advantages have made us become the key player in the bauxite mining industry. Firstly, with over 10 years of experience in the bauxite mining industry, we have demonstrated strong capabilities in landowner engagement, quality control, extraction, transportation to Kuantan Port, successful shipments to Mainland China, and full compliance with all government regulations – positioning us as a reliable and competitive industry player. Secondly, most of our bauxite mines are in close proximity with existing road and port infrastructure. Our mines are rather close to the port or stockpile with a distance of about 40 - 50km, thus, making the transportation more efficient and cost effective due to the low mine to port transportation cost. Thirdly, our company is capable of steadily supplying high quality bauxite. The raw bauxite we supplied fulfills the chemical composition requirement of our customers. This is in accordance with our company vision to provide our customers with high quality products and services.

We strive to provide customers with the highest quality bauxite. The chemical specification of our product on a dry basis is aluminium oxide (Al₂O₃) > 40% and silica (SiO₂) < 5%. Our product is tested by an international third-party testing services provider with ISO 6994 and ISO 6607 standard testing methods for alumina and silica content, respectively. This assures the test result to be highly accurate which shows our commitment to integrate honesty, integrity and business ethics into our business functioning. In addition, we strive to fulfil the requirements set by our client in order to meet the needs of their production line and form a mutually beneficial business relationship.

Since establishment, we successfully exported nine (9) units of Capsize vessel (capacity: 135,000 metric tons each capsize vessel) and 131 units of handymax vessel (capacity: 40,000 – 50,000 metric tons each handymax vessel).

Golden Prosperous Resources Sdn Bhd at present has competitive, and reliable bauxite production and a bauxite supply chain that produces optimum value, with bauxite production capacity reaching 2,000,000 MT/year, and yet possesses several potential mines to be extracted. In addition to steady supply of bauxite, our company has high quality assets to support the operation such as complete production fleet in the form of equipment and facilities for stockpiling, transportation, loading, and production and other supporting roles, such as haul trucks, backhoes, mobile equipment and others. With such infrastructures, we are capable of increasing production rapidly with minimal capital expenditure and can quickly adjust production volume based on market demand and conditions.

In 2024, Golden Prosperous Resources Sdn. Bhd. entered into an agreement with the approval holder to transport, store, and sell a total of 5,000,000 metric tons of bauxite stockpile in the Perasing area, Terengganu, where operations are currently ongoing.

Human resources are an asset and also one of the main keys to maintaining the company's position. Our infrastructures are supported by a highly skilled workforce with many years of experience: A large and varied workforce and management, made up of people with decades of experience from Malaysia and around the world.

1.1 Company Strategy

Purpose: To be a leader in the bauxite mining industry by providing enhanced services, relationships and profitability.

Vision: To provide quality services and products that exceed the expectations of our esteemed customers or clients.

Mission: To achieve an annual export figure of 2 million metric tons.

Core values:

- i. We believe in treating our customers with respect and faith.
- ii. We integrate honesty, integrity and business ethics into all aspects of our business functioning.

Goal:

- i. Regional expansion in the field of mining and developing a strong base of key customers.
- ii. Increase the assets and investments of the company to support development of services and sustainability.
- iii. To build a good reputation and become a key player in the field of mining.

1.2 Scope of Work

Golden Prosperous Resources Sdn Bhd has a good track record in the conduct of bauxite mining, transportation and exporting bauxite as well as acquiring new mining sites.

1.3 Company Financial Strength

Golden Prosperous Resources Sdn Bhd is a financially resilient and rapidly growing private company, supported by a strong credit rating, solid revenue performance, consistent profitability, healthy retained earnings, and a robust asset base.

| Mr Lau Jian Xiong | 41 | General Manager | With more than 15 years' experience in construction and mining industry expertise particularly in project planning, risk management and stakeholder engagement enable to lead cross-functional teams to deliver the high quality of results. |
|-------------------|----|-----------------|--|

2.0 Company's Growth

Growth in aluminium demand is expected to be driven mainly by a strong demand from China. Malaysian bauxite could prove critical for China's aluminium producers as they scout out alternatives to Indonesian bauxite supplies. To offset the absence of Indonesian bauxite, China has also stepped up imports of alumina, a semi-processed form of bauxite, from countries such as India and Papua New Guinea.

Golden Prosperous Resources Sdn Bhd exported 2 million metric tons of bauxite in the first half of 2015. "The export volume in the second half is expected to remain stable as we have a mining permit. In accordance with the latest regulations in Malaysia, mines which haven't obtained mining permits before 31 August 2015 will be shut down. The output of bauxite is expected to see a reduction of at least 40% if harsh measures are taken to ensure the enforcement of this regulation", said Dato' Sri Toh Hoi Thong, Director of Golden Prosperous Resources Sdn Bhd.

2015年马来西亚前十大铝土矿出口商统计

2016-01-14 [亚洲金属网](#)

北京（亚洲金属）2016-1-14 据中国海关统计，2015年1-11月份中国自马来西亚进口铝土矿约2050万吨。亚洲金属预计，2015年马来西亚向中国供应铝土矿总量有望在2200万吨左右。

亚洲金属网按照铝土矿出口量排名，选出2015年马来西亚前十大铝土矿矿主，如下表所示：

| 公司名称 |
|---------|
| 鑫鸿资源公司 |
| AK铁矿公司 |
| 古德曼矿业 |
| 多金属资源公司 |
| 林吉特和谐公司 |
| 兴业公司 |
| 金湾资源公司 |
| 春季能源公司 |
| 长三角资源公司 |

2015年，上述前十大铝土矿矿主共计出口量约2000万吨。其中，鑫鸿资源出口量达400万吨，位居首位。第二大铝土矿出口商是AK铁矿公司，出口量约300万吨。多金属资源公司、春季能源公司和长三角资源公司出口量分别为210万吨、170万吨和130万吨左右。其它几家公司出口量均在180-250万吨之间。

其中春季能源公司、AK铁矿公司、古德曼矿业可供应高品位铝土矿。

2016年，马来西亚将控制出口准证数量及开采量，预计2016年马来西亚铝土矿供应量将明显减少。

Article of Asian Metal on “Top 10 Malaysian Bauxite Exporters Total Export Figure in 2015” showed that the annual export figure of Golden Prosperous Resources Sdn Bhd was ranked first with the volume at about 4 million metric tons, and accounts for 20% of the total export figure from Malaysia.

| YEAR | BAUXITE EXPORT (MT) | BAUXITE EX-PORT (MT) |
|--------------|---------------------|----------------------|
| 2014 | 275,200.00 | - |
| 2015 | 4,080,242.27 | 1,800,000.00 |
| 2016 | 1,214,243.00 | 500,000.00 |
| 2017 | 1,430,311.00 | 500,000.00 |
| 2019 | 82,950.00 | - |
| 2023 | 200,000.00 | - |
| 2024 | 512,503.00 | - |
| 2025 | 18,952.00 | - |
| TOTAL | 7,814,401.27 | 2,800,000.00 |

Figure 2.1 illustrates the annual volume of bauxite sold from 2014 up to January 2025. Since its establishment, Golden Prosperous Resources Sdn Bhd has exported 7.81 million metric tons with 9 units of Capesize vessel (capacity: 135,000 MT each capsize vessel) and 131 units of handy max vessel (capacity: 40,000 – 50,000 MT each handy max vessel) of bauxite to mainland China whether directly or indirectly. In addition, the company has sold a total of 2.8 million metric tons on an Ex-Port (Free on Truck) basis.

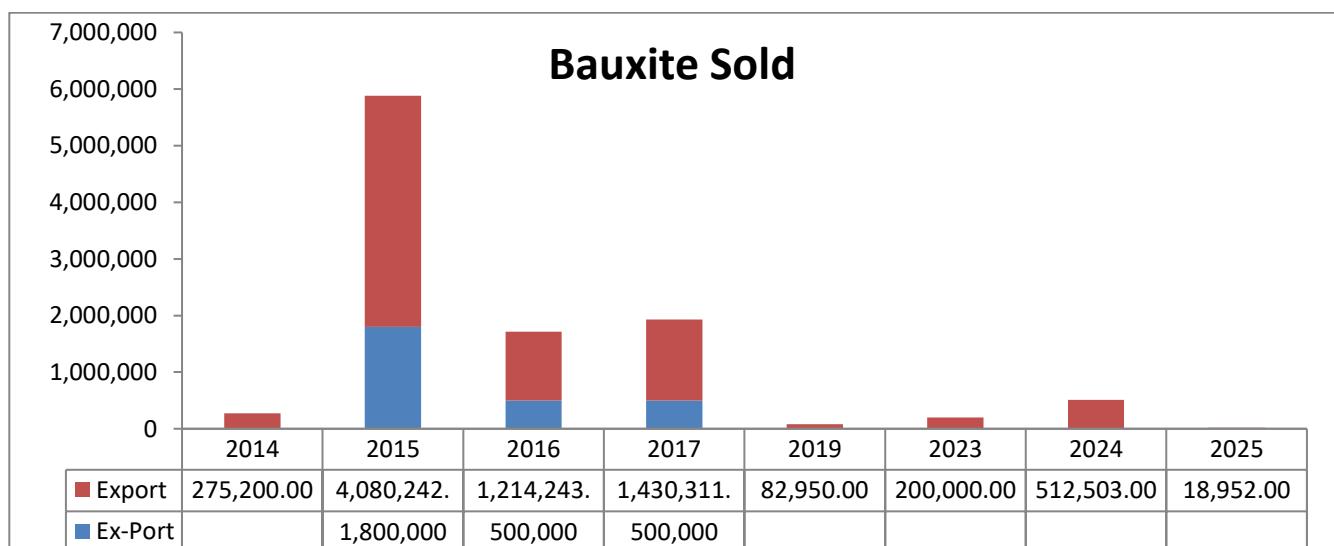

Figure 2.1 Annual Volume of Bauxite Sold from 2014 to 2025

Our company strives to increase the assets and investments of the company to support development of services and sustainability. The revenues of our company are

depending on the variables that are factored in with the reserve and demand of the bauxite minerals. Thus, it is important to have sufficient reserves of bauxite minerals to make our business sustainable. According to the interview with Dato' Sri Toh Hoi Thong, Chairman of our company, our company has four new mines which are being mined at the moment. We started to extract three mines in the first half of 2015 and one in the second half. There is at least 2 million metric tons of reserve bauxite available in Terengganu and another 2 million metric tons in Pahang.

Golden Prosperous Resources Sdn Bhd has experienced consistent and sustainable growth since its establishment, driven by strategic project execution, operational efficiency, and strong industry demand. Over the years, the company has expanded its operations across key regions, strengthened its financial position, and built lasting relationships with both domestic and international stakeholders. Our solid revenue growth, healthy profit margins, and reinvestment of retained earnings have enabled us to scale operations while maintaining financial stability. Moving forward, we remain committed to sustainable development and long-term value creation for all stakeholders.

2.1 Investment Projects

2.1.1 Tin Mining

Our company has also invested in the tin mining project located at Muadzam Shah, Pahang. We are currently working to extract 200 metric tons of tin ore and planning to extract 2,400 metric tons of tin ore in 2025 from 4 new tin mines locations. The production volume is adjusted based on market demand and conditions.

We are outsourcing a few tin mine locations and is in the midst of negotiating the terms and conditions of the project details

2.1.2 Manganese Mining

Our company has acquired an area measuring 100 acres for a manganese ore mining project located at Pekan, Pahang. The reserve is estimated around 200,000 metric tons and we are planning to commence the mining operation in 2025 onwards.

2.1.3 Iron Mining

Our company has invested in an iron mining project. There are two potential mines suitable for mining. First mine has an area of 100 hectares with iron content of 60 - 62%, 2 million metric tons reserves and can be mined immediately. The production volume is adjusted based on market demand and conditions. Second mine has an area of 100 hectares and iron content of 60% - 65%. Reserve is about 1.5 million – 2 million metric tons of iron.

2.1.4 Various Types of Stone, River Sand and Marine Sand

Golden Prosperous Resources Sdn Bhd is also engaged in providing various types of stone and river sand, such as quarry dust, 1 - 1.5m of armour rock, 300 - 800mm core rock, crusher run, 10mm chipping, 150 x 225mm blocks, 20mm aggregates, 25mm aggregates and river sand.

2.1.5 Timber Logging

Our company is also engaged in timber logging activities. We have been appointed as timber logging contractors for three (3) concession areas which measure approximately 700 acres in the District of Bentong and Rompin, Pahang. We are in the midst of applying necessary permits and approval with Pahang Forestry Department for the timber logging activities and expecting to commence operation in 2020 onwards.
